To All Value Customers,

RSE is dedicated to serving you by providing high quality filtration solutions that meet environmental regulations, including China RoHS requirements. RSE is in compliance and has been for many years. None of the following contained are found in our filtration products.

“Hazardous substances” refer to the following substances or elements that are found in electrical and electronic products:

1. Lead and its compounds;
2. Mercury and its compounds;
3. Cadmium and its compounds;
4. Hexavalent chromium compounds;
5. Polybrominated biphenyls (PBB);
6. Polybrominated diphenyl ethers (PBDE);
7. Other harmful substances as regulated by the State.

Please contact RSE with any questions or concerns.

Sincerely,

RSE Incorporated
